

DH-MAX18

Mesh Wireless Router

- Offers wireless access and high bandwidth.
- 1 gigabit WAN port and 2 gigabit LAN ports.
- Easily switches between LAN and WAN.
- Supports accessing 1000 Mbps optical fiber broadband.
- Supports being managed through the WiLynk app.

System Overview

Built with high-performance wireless transceiver chips, Dahua Mesh Wireless Router adopts advanced Mesh technology to provide broadband access and smooth wireless network services without dead angles for medium and large-scale scenarios. This product is suitable for scenarios that are more than 100 square meters, such as apartments, villas and offices.

Functions

Intelligent Management

The router can be managed through the WiLynk app which features functions such as router configuration, network topology, parental control, guest Wi-Fi and Wi-Fi sharing. It not only improves router management, but also allows you to conveniently monitor the family network.

Smart Mesh Networking

Offers one-click networking, fast coverage of the mesh network, flexible configuration, network self-healing, and a user friendly interface that is easy to use.

1800 Mbps Wireless Speed

Supports 2.4G and 5G dual-band Wi-Fi, and complies with the IEEE 802.11ax standard. The wireless speed of the device can also reach up to 1800 Mbps, allowing smooth internet access.

Load Balancing

Conveniently switches between LAN and WAN, and supports load balancing mode. It also optimizes the flow of multi-WAN, increases the bandwidth for data transmission and provides link redundancy.

VPN Encryption

L2TP VPN and multiple types of encryption algorithms are supported, making it more convenient for enterprises to build virtual private networks through the internet.

Seamless Roaming

Features intelligent optimization of connections and seamlessly switches between nodes on the mesh network to ensure the stability of the network.

Wide Coverage

Wide network coverage that can cover the entire room without any dead angles.

Specification		General	
Hardware		Operating Temperature	−10 °C to +55 °C (+14 °F to +131 °F)
Ethernet Ports	1×10/100/1000 Mbps WAN port 2×10/100/1000 Mbps LAN port	Storage Temperature	−40 °C to +70 °C (−40 °F to +158 °F)
Wireless Standard	IEEE 802.11b/g/a/n/ac/ax	Operating Humidity	5%–95% (RH), non-condensing
Power Supply	12 VDC	Main Body Dimensions	94 mm × 94 mm × 72 mm (3.70" × 3.70" × 2.83")
Included Power Adapter	Yes	Gross Weight	1-pack: 0.48 kg (1.06 lb) 3-pack: 1.2 kg (2.65 lb)
Reset Button	1	Net Weight	1-pack: 0.23 kg (0.51 lb) 3-pack: 0.69 kg (1.52 lb)
Power Consumption	≤12 W	Product Dimensions	1-pack: 126.5 mm × 121.5 mm × 155.5 mm (4.98" × 4.78" × 6.10") 3-pack: 451 mm × 128 mm × 106 mm (17.76" × 5.04" × 4.17")
Indicator Light	1 × status indicator	Memory	256 MB
Performance		Statics Protection	Air discharge: 8 kV; Contact discharge: 6 kV
Terminal Communication Protocol	IEEE 802.3/802.3u/802.3ab@LAN; IEEE 802.11b/g/a/n/ac/ax @WLAN	Lighting Protection	Common mode: 2 kV; Differential mode: 1 kV
Operating Frequency	5.15–5.25 GHz; 5.725 GHz–5.850 GHz; 2.400 GHz–2.483 GHz	Installation	Desktop mount
Wireless Speed	2.4 GHz Wi-Fi: 574 Mbps; 5 GHz Wi-Fi: 1,201Mbps	Packing List	MAX18 (1-pack) 1×Device 1×Power adapter 1×Twisted pair cable 1×User manual 1×Laws and regulations manual
Antenna	2×Built-in 2.4 GHz Wi-Fi omnidirectional antenna; 2×Built-in 5 GHz Wi-Fi omnidirectional antenna		MAX18-3 (3-pack) 3×Devices 3×Power adapters 1×Twisted pair cable 1×User manual 1×Laws and regulations manual
Polarization	Horizontal		
Cross-polarization Isolation	2.4 GHz: ≤3.5 dBi; 5.8 GHz: ≤4.5 dBi		
Antenna Gain	2.4 GHz–1: 2.9 dBm; 2.4 GHz–2: 3.52 dBm; 5.8 GHz–1: 3.65 dBm; 5.8 GHz–2: 4.45 dBm		
Connected Wireless Terminals	2.4 GHz Wi-Fi: 32; 5 GHz Wi-Fi: 64		
WAN Port Connection Mode	Static IP address; DHCP; PPPoE	Dimensions (mm[inch])	
Channel Width	20 MHz 40 MHz 80 MHz		
General			
Management and Log	Syslog;SSH;NTP		
Firmware Update	Web/WiLink App update		
Wireless Certification	CE RED		
Security Mechanism	IP/MAC filtering; WAP/WPA2-PSK/WPA3-PSK		
Network Protocol	UDP; HTTPS; IPv6; IPv4; TCP/IP; HTTP; NTP; SSL; DHCP		
Routing	Static routing		
DHCP Server	Enable and disable DHCP Server; Configure address pool of DHCP Server; Configure the lease period; Assign fixed IP addresses to clients		
NAT	Port-based NAT configuration		
VPN	L2TP; L2TP/IPsec VPN		
APN	APN configuration
